

K-Love is an integral part of my day - I can't start my day without it. It is the only station in my area that plays contemporary Chirtsina music and it keeps me informed of local events that my family and I might want to participate in. If K-Love is not aloud to broadcast in my area there is no other alternative for my children and myself. K-love helps us live the life we want to live serving Jesus!!! It's a the only alternative to loud abnoxious music, secular music that sends anything but an encouraging message to the listeners. Klove serves my community well, with great public service announcements about living life to the fullest. Klove is the only alternative for secular music. K-Love's music is not suggestive in anyway as secular music is - PLEASE leave K-love on air in my area!!!!

Thank You,

Linda Mesibov
